

Demonstration of Proposed Features

Date	29 September 2026
Team ID	SWTID-2026-4636
Project Name	AI Blog Nest API
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S. No	Feature Name	Description	Status (Implemented / Pending)	Demonstrated (Yes / No)	Remarks
1	User Authentication	Provides secure user registration and login functionality for the API.	Implemented	Yes	Authentication tested successfully
2	Blog Management	Allows users to create, view, update, and delete blog posts.	Implemented	Yes	CRUD operations demonstrated
3	AI Content Assistance	Uses AI to assist in generating or improving blog content.	Implemented	Yes	AI-based content generation demonstrated
4	Category Management	Allows blogs to be organized and managed using categories.	Implemented	Yes	Category operations demonstrated
5	Search & Blog Retrieval	Enables users to retrieve and search blog	Implemented	Yes	API responses verified

		posts through API endpoints.			
6	RESTful API Integration	Provides structured API endpoints for communication between the client and backend.	Implemented	Yes	Endpoints tested using API testing tools

Feature Implementation Summary:

Summary	Details
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
