

Ideation Phase

Define the Problem Statements

Date	28 SEPTEMBER 2026
Team ID	SWTID-2026-4636
Project Name	AI BLOGNEST API
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Customer Problem Statement Template

Understand your customer's point of view and focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	a blog writer / content creator
I'm trying to	create, manage, and publish blog posts easily through an API
but	managing blog content manually takes time and is difficult to organize
because	there is no simple, secure, and centralized API for handling blog posts, users, and content operations
which makes me feel	Frustrated and time-consuming

Example:

I am	I'm trying to	but	because	which makes me feel
a blog writer / content creator	create, manage, and publish blog posts easily through an API	managing blog content manually takes time and is difficult to organize	there is no simple, secure, and centralized API for handling blog posts, users, and content operations	Frustrated and time-consuming

 Problem Statement (PS)	 I am (Customer)	 I'm trying to	 But	 Because	 Which makes me feel
PS-1	I am a blogger and content creator.	I'm trying to create and manage my blog content easily.	But it takes a lot of time to write, edit and organize my posts.	Because I don't have a simple and efficient tool with AI support and proper organization.	Frustrated, overwhelmed and less productive.
PS-2	I am a small business owner who wants to share knowledge and build an audience.	I'm trying to publish regular blog posts and reach more readers.	But I find it difficult to manage multiple posts, categorize them and get ideas for new content.	Because existing platforms are complicated, expensive or lack AI-powered features.	I feel stressed, confused and unsupported.
